

# Speculation

Past embargos

Invitation to Embargo? No.

We asked. No reply.

We helped a lot during  
Meltdown and popss

No NDA

Free agents (at the moment)

Very deep spec pipeline

Security checks done  
at Instruction Retire?

Consequences?

FPU issue

Did we fix it?

NDA signers grumbling

Let's try to find next one

IDT? LDT?

Interrupt servicing?

We think we have to  
Flush a cache line

Which cache line?

Flush all the things?

After public disclosure

Undo the unneeded ones?

Calling all experts who  
don't have NDA.

Help us. Thanks.
